

CORNER PROTECTOR WITH FRAME

Our protective corner frame fits around the entire perimeter of the bottom or top of the pallet, product or box interior. When used with a pallet, the result is a more **compact and firm** package. Used inside a box and combined with honeycomb cardboard reinforcements, it creates **very safe, hard-wearing and totally adaptable** package for your product.

Advantages

Protects the corners/edges of the product and/or pallet

Stabilises the product and/or pallet during storage and transport

Stabilises the product and/or pallet during storage and transport

Fast set-up
