

## CORRUGATED CARDBOARD

Corrugated or ribbed cardboard in rolls is a versatile material that can be easily cut, folded, creased and set up, which can **adapt to different spaces/shapes** to separate, secure and protect your products, as well as providing a little cushioning.

Our sheets of corrugated cardboard are perfect for separation and providing **greater stability** thanks to their rigidity.

- Supplied in coils, sheets and plates
- Fixed, mobile and wall-mounted dispensers with blades available

### Advantages

**100% recyclable**

**Easy handling**

**Adaptable** to different spaces/shapes

### Weights and dimensions
