

STANDARD CORNER AND EDGE PROTECTION

Our edgeboards or corner protection are designed to **protect the edges/corners** of your product or pallet, protecting it from shocks and stabilising movement so that your product arrives at its destination in perfect condition. What's more, its **hard-wearing design makes unloading a breeze**, conveying a positive impression of the company sending the product.

Advantages

Protects the corners/edges of the product and/or pallet

Stabilises the product and/or pallet during storage and transport

Greater pallet load thanks to the **height stability** created by the edgeboard

Spreads out the pressure of the strap and film

Our edgeboard's vertical compressive strength **allows for pallet stacking**

Continuous production in a **wide range of dimensions**

Available immediately

Fast and agile delivery thanks to the wide variety of available stock

Customization options

- Printing
- Adhesives
- Lamination
- Uneven wings

Weights and dimensions

- Wings: from 25mm to 100mm
- Thickness: from 2mm to 10mm
- Length: from 50mm to 6000mm

Applicable sectors

Food, Agriculture

Graphic arts

Automobiles, Aeronautics

Industrial components, Medical equipment

Electronics

Glass industries

Extractive and Chemical industries

Pharmaceutical, Cosmetics and Fragrance industries

Metallurgical and Profiles

Furniture

Transport, Logistics

Construction

Domestic appliances, Air Conditioning
